Several Bombs Dropped on Essen Plant, but Damage Not Known

(By Associated Press.)

It is said that bombs were dropped from the aeroplane on the buildings devoted to the manufacture of cannon. The airmen escaped unhurt.

SCROFULA AND ALL HUMORS GIVE WAY

There are many things learned from experience and observation that the older generation should impress upon the younger. Among them is the fact that scrofula and other humors, which produce eczema, boils, pimples and other eruptions, can be most successfully treated with Hood's Sarsaparilla.

This great medicine is a peculiar combination of remarkably effective blood-purifying and health-giving roots, herbs and herbs, which are gathered especially for Hood's Sarsaparilla—has stood the test of forty years.

Practical Prescription Against Stomach Acidity

Ninety per cent of all cases of stomach troubles are caused by too much acid. In the beginning the stomach itself is not diseased but if this acid condition is allowed to continue the acid is very likely to eat into the stomach walls and produce stomach ulcers which may render medical surgery necessary even to prolong life. Therefore, "acid stomach" is really a dangerous condition and should be treated seriously. It is utterly useless to take pills and eat stomach tablets. The stomach is not a machine and should be treated as such. The best remedy is a natural stomachic, the best remedy is a natural stomachic, the best remedy is a natural stomachic.

MR. JAS. P. CALLAWAY IS BURIED IN AGRANGE

Body of Man Shot for Burglar Taken to Old Home After Funeral Here

The funeral of Mr. James P. Callaway, the prominent young Atlanta who was shot and killed Wednesday morning in the Wyckoff apartments, 850 Peachtree street, by William B. Carhart, who mistook the young man for a burglar, was conducted at 2:30 o'clock Thursday morning from the residence of Mr. Callaway's brother, Major Frank E. Callaway, 44 East Peachtree street.

Numbers of friends of the family attended the funeral services. Mr. Callaway was one of the best known men in the city, a member of the exclusive clubs, popular in society, with a sunny, genial nature that had won him a host of admirers.

The deepest sorrow is felt by the death of the young man. Many of them called at the residence of Major Callaway to tender their heart-felt sympathy.

Dr. C. B. Wilmer, officer of St. Luke's Episcopal church, officiated at the funeral services. The pallbearers were Henry Kennedy, Julius Jennings, J. L. McLendon, T. J. Lyons, H. Lee Harvey and Stuart Boyd.

Following the funeral services, the body of Mr. Callaway was taken over the Atlanta and West Point railroad to LaGrange, Ga., where it was interred in the old family burying ground. Mr. Callaway's mother and sister, live in LaGrange, where the family has been prominent for generations.

One of the fifty members of the Bell House club accompanied the funeral party to LaGrange. Mr. Callaway had been one of the "Bell house boys" for seven or eight years. There was none among them more genuinely liked than "Jim," as he was affectionately known, and his death has caused the keenest grief to all.

While a coroner's jury Wednesday decided the shooting of Mr. Callaway by Mr. Carhart was justifiable, a police investigation of the circumstances surrounding the affair is being continued. Detectives Starnes and Campbell, assigned to the case by Chief Sanford, spent an hour Wednesday searching the Carhart apartments in the hope that some clue might be found which would explain the puzzling appearance of the young man in the apartment. The detectives consulted with Officers Long and Austin Thursday morning. They were the first officers to reach the scene of the shooting.

It is expected that several mysterious features of the case will be cleared in a few days. Solicitor Hugh M. Dorsey says he does not contemplate calling the attention of the grand jury to the case, and Major Frank E. Callaway has no further statement to make regarding it.

The continued activity of the police did not evoke a further statement from Mr. Carhart Thursday.

Called by a journal reporter he said simply: "I have no statement to make."

Louis Carhart, the twenty-two-year-old son, in whose room Mr. Callaway was standing when Mrs. Carhart saw the body, was returned to the city Wednesday night.

According to his father, he says he had never given Mr. Callaway a key to the apartment, or could he make any statement which would throw more light on the tragedy or explain any of its mysteries.

PRIZE BETTER BABIES ARE ANNE ARDEN AND ROGER HAWLEY WING

ROGER AND ANNE, PRIZE BABIES.

500 Mothers and Children Crowd Baptist Tabernacle When Prizes Are Awarded by Atlanta Physicians

Little Miss Anne Arden and Master Roger Hawley Wing would be the proudest youngsters in the whole city of Atlanta today, could they but realize in their two-year-old hearts that they are the winners of the "better babies" contest which was promoted by the Georgia branch of the National Congress of Mothers.

But they care far more for sleep and food, no doubt, than they do for the pretty bronze medals which were awarded them Wednesday afternoon at the mass meeting of the mothers and babies at the Baptist Tabernacle.

The daughter of Mr. and Mrs. T. N. Arden, of 804 Piedmont avenue and son of Mr. and Mrs. J. A. Wing, of 107 East North avenue, were awarded them Wednesday afternoon at the mass meeting of the mothers and babies at the Baptist Tabernacle.

Roger, in being judged the best developed boy baby, scored a great victory for the science of eugenics. His parents are Mr. and Mrs. J. A. Wing, of 107 East North avenue.

Roger is said to be the only genuine "eugenics baby" in the city. His mother and father came to Atlanta from the state of New Jersey, where they were married by eugenic certificate, not because that is the law in New Jersey, but simply because Mr. Wing and his wife thought it a rather risky idea.

Roger, variously known as Roger the Coder, Petty or Roger Podger, is a baby, variously known as Roger the Coder, Petty or Roger Podger, is a baby, variously known as Roger the Coder, Petty or Roger Podger, is a baby.

PHILANDER C. KNOX NOW OF COUNSEL FOR THAW

Former Secretary of State Files Brief in Supreme Court for Matteawan Fugitive

(By Associated Press.)
WASHINGTON, Dec. 3.—The long list of attorneys who have fought for liberty for Harry K. Thaw since the murder of Stanford White, was added to today when Philander C. Knox, former secretary of state and attorney general of the United States, filed in the supreme court a brief in advocacy of that court affirming the action of the New Hampshire federal court in refusing to allow Thaw to be extradited from New Hampshire to New York.

Mr. Knox contends in his brief that the record shows Thaw is insane and that the state of New York is therefore seeking to extradite an insane person to answer for the alleged offense of walking out of an insane asylum, notwithstanding it is a fundamental principle of law that extradition proceedings may not be used to accomplish anything else than the return of a fugitive criminal for trial.

He adds that a New York jury has declared that Thaw committed no crime in the murder of Stanford White because he was insane. He takes the position that the action of New York in insisting on the extradition seemingly evinced a disposition to take vengeance on the accused for his alleged illegal crime.

The fact that Thaw and his friends have been able to employ counsel and the alleged wealth of the Thaw family are pronounced by Mr. Knox as unworthy of consideration in the presence of the supreme court.

INTERLOCKING DIRECTORS MAY SERVE OUT TERMS

(By Associated Press.)
WASHINGTON, Dec. 3.—Interlocking directors in banks and trust companies having common overlapping terms serve out their terms provided they do not extend more than two years after the final passage of the new Clayton trust bill, according to a decision today of the federal reserve board. A bill contains prohibitions against interlocking delegates.

Splendid Medicine Stomach Trouble

I Suffered for Several Years Peruna Restored My Health

Ats. Elizabeth Reuther, No. 598 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and have felt splendidly ever since. I now take it when I contract a cold and it soon rids the system of any catarrhal tendencies."

Over Ten Years Ago. "I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary, I am recommending it to my neighbors whenever a chance occurs."

COLLEGE PARK STIRRED OVER POLITICAL BATTLES

Election Monday Will Bring to
Close One of City's
Campaigns

(Special Dispatch to The Journal.)
College Park, Dec. 3.—As for
College Park is concerned, there
has never been a political campaign in
Georgia that rivalled in interest the
one now being waged here. The election
to be held next Monday. The cam-
paign has reached the "crucial" stage
and the citizens are enjoying the
struggle of each of the candidates.

Mayor B. S. Hule, who is just com-

the head of the city government, is op-
posed to George F. Longino, Jr. This
campaign is a battle royal between
two popular bank cashiers. Mayor Hule
serving the Citizens' bank of East Point
in his capacity, while Mr. Longino is
a similar position with the Bank of
College Park.

There also is considerable interest in
the councilman race. Raymond Wil-
liams, present councilman from the
first ward, has declined to offer for
re-election. He is opposed by C. M. Wil-
son and P. F. Starrs.

For the place for the place from this
ward, E. J. Walker, present incumbent
from the second ward, is opposed in
his race for re-election by Dr. C. M.
Cris and S. S. Howie.

This is the first election under ward
division and this has added much to the
interest of the campaign. Never in the
history of the city has the registration
been more than 250, while at present
more than 400 have registered and
the polls will not be closed until mid-
night Friday.

in the penitentiary by the sheriff there.
Smith escaped Atlanta after being in-
dicated by the grand jury last summer
for the murder of Will Brown, colored,
on Peters street in November, 1913.
Smith was lodged in the Fulton county
jail to await trial.

covering from his illness sufficiently to
appear and resentence Frank Monday or
Tuesday of next week. The certifying of
the remittitur received Wednesday and
in resentencing will both be held up
at least until Monday, waiting for Judge
Hill to take charge.

GREAT FLUTE PLAYER MAKES ATLANTA HOME

Emil Medicus Will Take Part in Free Concert Sunday

Emil Medicus, flute virtuoso and associate of the Royal Academy of Music, London, who has come to Atlanta to make his home, will appear in the free concert at the auditorium-arms Sunday afternoon. Mr. Medicus is said to be one of the few truly great modern flute players and has been presented medals by the late King Edward of England, by the Duke of Connaught and other royal patrons.

For the past twenty-five or thirty years, solo flute playing has been practically unknown in the musical sections of America, and the Atlanta music loving public is looking forward to the Sunday concert with a good deal of natural curiosity as well as sincere artistic interest.

FOOD AND CLOTHING SENT TO BELGIANS

Shipment Valued at More Than \$4,000 Left Atlanta Thursday Morning

Twenty boxes of clothing, valued at more than \$400, left Atlanta Thursday morning for New Orleans, there to be shipped to the suffering Belgians. Accompanying the clothing are fifty sacks of flour, valued at about \$300.

These articles represent the efforts of Dr. F. E. May, French consul in Atlanta, who has been untiring in his work to relieve the Belgians.

Dr. May wishes it known that contributions of all sorts will be received by him and will be shipped to their destination as often as the vessels make the trip. He is anxious to get quantities of foodstuffs, of the perishable sort, such as wheat, rice, flour, coffee and peas, beans, canned goods, cured and salted meats, dried apples and grain.

These articles receive free transportation from Atlanta to New Orleans and from New Orleans to French and Belgian ports and are immediately distributed to the needy at the latter places.

To the People Themselves:

There's another effort to stir up an attack against this company. We are a public service corporation. As such, we have been considered legitimate prey by the man with an axe to grind. We are going to ask you for fair play, because you can be fair and you will be fair.

This present effort is for a reduction in the rate you pay us for the gas you consume. That rate is now \$1.00 per 1,000 cubic feet. The few who are trying to make you appear as making a popular and general demand for reduction, say they believe it should be 80 cents. If they believe that honestly and sincerely, we can convince them that the present rate is right. If they do not believe it honestly and sincerely, if they are using it to further their own interests, we can't convince them.

But we can convince you. And you are the arbiters.

Misstatements have been made—made publicly, through the newspapers.

It has been asserted that we are making 22 per cent on our investment. That is not true. We are making about 7.51 per cent.

It has been asserted that we pay no interest on deposits made by you, and that we are conducting our business with this money deposited by you. Both assertions are not true. You deposit \$5 for fulfillment of contract conditions, when you become a customer. We pay you 6 per cent interest, and return it to you with the interest when you have fulfilled the contract. At the present time the total of your deposits, drawing 6 per cent interest from us, is \$13,000. Contrast this deposit with the outright purchase you have to make of water-meters at \$15 each.

It has been asserted that your gas rate is exorbitant, an excessive rate of return on our investment. That is not true. It is a reasonable rate—reasonable from your standpoint, and reasonable from ours.

We have been called by City Electrician R. C. Turner, from whom we ask no favor, "an octopus, whose tentacles are strangling the consumers of Atlanta." We ask you to judge that loose assertion.

The fact is the rate you pay us for gas is lower than the rate in some cities and higher than the rate in others. If it can be argued that because other cities charge a lower rate, Atlanta's should be cut to their average, it can be argued with equal logic that because still other cities charge a higher rate, Atlanta's should be raised to their greater average. Let's be sensible and talk like grown-up people.

You know and we know conditions govern rates. If a city is big, if there are many consumers along each mile of main, if the gas consumption is large in the area served, one plant with the same operating expenses as another located elsewhere under less favorable conditions can sell gas at a lower rate. On the other hand, if the gas consumption figures are the same in two cities, the one closer to coal mines and oil fields and pipe foundries has a distinct advantage and can sell gas more cheaply than the other.

Atlanta covers a large area in proportion to her total population. Among 33 cities that have a lower initial gas rate, Atlanta's number of consumers per mile of gas main is smaller than that of all but five cities. Its consumption of gas per mile of main is smaller than that of all but six. The city has no natural advantages helpful in gas-making. It is comparatively remote from coal mines, oil fields, pipe foundries. It is an inland city, without water freight rates.

Birmingham is the only city in the southeast whose gas rate is lower than Atlanta's. The cost of production and that of distribution are much less there than here. Birmingham has coal and pipe foundries at hand, oil nearer than Atlanta has and at cheaper freight rates.

Yet Birmingham's gas rate is 95 cents—only five cents lower than Atlanta's.

Baltimore's rate of 80 cents has been cited as proof that Atlanta's should be cut. Baltimore is a bigger city, a coast city, nearer coal and oil fields than Atlanta, has its own pipe foundries, and has 163 gas consumers per mile of main. Atlanta has 105. Its volume of business is more than four times that of Atlanta.

Take another instance you've been given. Detroit's rate of 85 cents (not 75 cents, as stated) is cited as reason for reduction here. Detroit's volume of gas business is six times ours. It has 166 consumers per mile of main. Its gas is mainly by-product gas from the big coke ovens there.

What's a reasonable rate of return? Public service commissions adjust their definitions to circumstances. It seems to range from 8 to 10 per cent on physical value plus working capital. The Georgia commission has declined to consider, in its basis for reasonable return, the franchise value of gas companies, though all of us pay taxes on that value. In our case it is assessed by Comptroller Wright at \$700,000, which is 60 per cent of \$1,166,666; and we pay taxes on it. But disregard it. What's left?

Our physical property is assessed in the annual return on file in the Comptroller's office at \$1,900,000. The assessment in all cases is supposed to be 60 per cent of actual value. Therefore the actual value of our property would be, by the Comptroller's authority, \$3,166,666. Two nationally known engineering firms assessed it, one at \$3,174,664, the other at \$3,220,454. The average of all three is \$3,187,261. Take that. It excludes franchise value, mind you.

Add working capital, \$161,000 at the time of appraisal.

This gives the total, \$3,348,261. On that we are entitled to a fair and reasonable return after deduction for depreciation. Aren't we?

Our gross earnings in 1913 (the latest annual total available) were \$853,102. Deduct our operating expenses (\$435,169) and our taxes (\$71,165) and 3 per cent depreciation (\$95,618), and you have our net earnings left—\$251,149. That is 7.51 per cent of the total valuation, \$3,348,261.

It is the revenue from gas rates at \$1 for the first 1,000 cubic feet, 90 cents for each of the next 20,000 cubic feet, 80 cents for the next 20,000, and 70 cents per thousand above 50,000.

At those rates, our net profit was 7.51 per cent.

Can we afford to reduce them?

Can you afford to have them reduced?

CHEAPER GAS RATE FIGHT IS NOW NEARING CLIMAX

Row May Be Carried Before the State Railroad Commission

The fight inaugurated by City Electrician T. R. Turner for cheaper gas rates in Atlanta, more than a year ago, is expected to come to a climax on Friday evening, when members of the special gas rate committee will meet the members of the general council and the officials of the Atlanta Gas Light company in a conference.

The Atlanta Gas Light company has issued a statement Thursday outlining its position toward a reduction in the rate, and on this statement it is expected that, at least, if it pushed the fight will have to do so before the railroad commission.

The gas company officials declare that instead of earning \$12,000,000 a year, as has been charged by members of the committee, that the company makes a modest dividend of 7.5 per cent, or almost one-third less than was stated.

A significant part of the company's statement is that of no one of the larger cities, which have a lower retail gas rate than Atlanta, has as small a number of gas consumers as Atlanta, but that city is situated in the heart of the coal fields, and the cost of coal is much smaller than it is here.

The company states that its net earnings amount to \$257,194 on an investment of \$2,384,241 or an average of 10.75 per cent.

Two members of the special committee, Messrs. Green and Hagood, declare that the rate should be reduced from 10 per cent to 8 per cent, while the third member of the committee, Councilman Houston, declares that the rate should be reduced to 7 per cent, which would make a rate of 30 cents per cubic foot.

City Electrician Turner, who supplied the committee with many comparisons, declares that the rate here is higher than that charged in most of the southern cities, and is a high reduction in the rate.

In event of a failure to secure a lower rate, the city electrician urges the election of a municipal gas plant.

The definite course of action of the council committee will be determined after the conference with the officials of the gas company. A report, with recommendations for action, is expected from the committee, at next Monday's session of council.

Some of the figures secured by City Electrician Turner comparing the rate in Atlanta with that in other cities, follows:

One more illustration. In Berlin the school of Fine Arts and the school of Music and the buildings of the university and the clubs, and every other building of a similar character has been taken over for hospital purposes.

"How can you?" we asked a staff surgeon.

"Why not?" he replied. "There is no one left to go to them."

We rode past a public school building. The small boys were pouring out of the building, one after another, the head, tripping each other up, behaving just as small boys at such an hour of the world over. He pointed to the school.

"From as they are needed for hospital purposes," said he, "we shall take over every public school building in Germany. The plan was made years ago. No German thinks that unusual. It is merely the part of the war machine. They are all corps together."

Battle in Poland Undecided; Fighting Renewed in Belgium
(By Associated Press.)

LONDON, Dec. 3.—With increasing thunder of guns in the vicinity of Ypres and the arrival of the first of transports bearing wounded men lead to the conclusion in London that a greater degree of activity has prevailed in western Flanders than has been reported in the official communications.

All reports agree that in northern Poland, the battle is still undecided and fiercely contested, with the Germans making desperate efforts to resume their forward movement in the direction of Warsaw.

From Petrograd comes the report that German reinforcements have been made the spectacle on account of the German forces to cut through the encircling Russian cordon. According to this report the dilatoriness of General Rennenkampf in bringing up reinforcements made the success in the German move possible.

Regarding the campaign as a whole, a well known Berlin military critic maintains that the long resistance and the unexpected recuperative powers of the Austrians, coupled with their losses in Poland, have deprived the German army of a large portion of her first line troops. The anxiety of the other hand, observers in Petrograd express the opinion that the Russian army is not yet more than a match for the shattered remnants of General Von Hindenburg.

The German retreat has been reported to be within ten miles of Cracow, while the Austrian stronghold left in Galicia is declared to be desperate.

waiting quite pale in insignificance. Handsome though they were, they were the fairest of Atlanta's fair, court ladies to such a queue.

SHRINE JUDGE PARADE.
At the Capital City club they fell out of line and sought the hospital, where the parade passed in review before them. Much talk was heard of the "darlingest" and the "quintessence" for these were the judges of the parade.

The Georgia boys and girls, members of the corn and canning clubs, followed the court party, also fell out beyond the club in order to see the parade as it passed by.

Bearing banners of wealth and prosperity, these staunch young folks were cheered wildly from the time they left the capital until they had completed the parade as passed by.

Led by the Atlanta drum corps and Captain Johnny Peel, Atlanta's schools formed the formation of the parade; the Tech high school boys and the Boys' High school girls, and the canal of Grant park bringing up the rear, the only parade of the most precious quadrupeds who, it was felt, could stand the rigor of the rain.

The third division of the German move over with mere mention save one exception. The house of the city council, the county commissioners, and the Ad Men, are not productive of enthusiastic interest, but we must speak of the Ad Men, for it is these valiant workers in Poland, have depicted the whole black, a large portion of her first line troops.

SOCIALISTS POLL ONLY 19 VOTES IN ATLANTA

(Continued from page one.)

Only 1,218 Citizens Go to Polls for General City Election

Socialists of Atlanta marshaled 19 voters to the polls to ballot Wednesday for their candidate for mayor, Samuel Kreisberg.

Of course every nominee of the Democratic primary was duly and formally elected to office, and George E. Johnson, the recorder, was elected twice, first for the four-year term, and second for the term of Judge Nash it. Broyles. While the city attorney had ruled that his election to the unexpired term by council would be sufficient, he was elected by the voters as a matter of precaution.

The total vote in the city was 1,218. In no race but that for mayor did any opposition materialize, and Mayor James G. Woodward secured 1,144 votes against his opponent's 19. There were 53 stragglers.

The total registration in the city was more than 15,000 showing that less than 10 per cent of the qualified voters went to the polls.

NURSES IN THE WAR
The women of the warring nations are nursing, cheering and comforting the wounded or dying. The women of Europe not only wrap bandages and scrub lint, but they tend the farms, dig coal, carry burdens and do the work of the men now under arms. Every male fighter, however brave and heroic, was born of women; the high courage and hardihood that are a nation's strength are inherited from the mother.

Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. Dr. Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.
